

# NATURE'S AWAKENING

Seasons Change and we Change with them.

As warm weather approaches nature awakes from her long winter sleep. The dreary months of bitter cold give way to sunshine, the ice king vanishes and the swelling buds and tender sprouts give evidence of spring's awakening. The sap, the life blood of all vegetation, is coursing upward through roots and fibres, taking with it from the bosom of mother earth food for the growth and development of vegetable life. Rich soil and a free and abundant circulation of sap produces healthy vegetation, while poor soil and a deficiency of the life giving fluid means dwarfed or stunted growth and decay.

At spring's awakening the blood from which all animal life draws its sustenance and which nourishes our bodies must be free of all impurities and in a normal, healthy condition, or evidences of it will surely crop out in the form of sores and boils, red itching eruptions, pimples, rashes and skin troubles of every description. Warm weather stirs the blood, and in the effort to throw off the accumulated poison is thrown into a feverish excitement and riotous state, and the skin is the chief sufferer. The humors and poisons with which it is filled are thrown off through the skin, and so long as the blood is burdened with impurities sores and boils, pimples and blotches, bumps and rashes will continue to come. Bad blood not only affects the skin but creates internal disorders. The Liver and Kidneys act less promptly, the stomach is upset and the appetite usually fails, and this condition of affairs is bad on the nervous system and brings on that debilitated, run-down, tired-out feeling common to this time of the year. To remove from the blood all impurities and poisons is necessary before there is a full and free circulation and healthy action in other parts of the system. If your blood is all right then you are prepared for spring's awakening and the coming of warm weather. As a perfect spring medicine nothing is superior to S. S. S., which is made from roots and herbs gathered fresh from fields and forests, and not a particle of any mineral substance of any kind enters into this great vegetable remedy; and S. S. S. is the only blood purifier known of which this can truthfully be said. S. S. S. for the blood is widely and favorably known; it has been used for nearly fifty years and is more popular to-day than ever. If your nervous system is run down and the appetite fails, or sores, boils, pimples, or eruptions of any kind begin to appear, it indicates the blood is not up to the proper standard and that it has become impure and lost its power to nourish the body. Rich, pure blood and good circulation assures perfect health and freedom from many annoying ailments peculiar to spring. You will find S. S. S. acts promptly and will put your system in the best possible condition at spring's awakening. If you have any blood trouble, write us about it and our physician will help you get rid of it. Book on blood and its diseases free.

## HAS A GOLDEN OPINION OF S. S. S.

Salem, Ohio, August 4, 1903.

I have a golden opinion of S. S. S. Will have no other blood medicine in the house. I do not believe there is a remedy made that can compare with S. S. S. as a blood purifier, alterative and tonic. It purifies and enriches the blood and gives tone and strength to all the organs. In other words, it builds up the general health while driving out poisons and impurities. I am a great admirer of S. S. S. because I know it to be all you claim for it, and know, too, that it is superior to Sarsaparilla compounds and other things I have used. To sum up what I have said, S. S. S. is the prince of blood purifiers and I unhesitatingly give it my endorsement.

## INCREASED STRENGTH AND ENERGY.

Wheeling, W. Va., May 27, 1903.

This spring I was greatly run down in health, and feeling that I needed a blood purifier and tonic, I began the use of S. S. S. and took some six bottles, with the result that it put my blood in good condition, gave me increased strength and energy, improved my appetite and digestion, and made me feel like a different man. As a blood purifier and tonic S. S. S. is all right.

## LITTLE PERU BELLIGERENT

Orders the Harbor at Iquitos to Be Mined.

WILL INVADE BRAZIL

Troops Ready to Occupy Brazilian Towns.

Lima, Peru, May 7.—The general staff has ordered two line battalions and one battery of machine guns to proceed to Alto Jurua, by way of the river Amayza, to repulse any Brazilian troops there may be in that territory, and one battalion with two machine guns has been ordered to Chanchamayo, on the river Perene, to sustain Peruvian sovereignty there. The general staff also ordered that Iquitos be placed in a state of defense; that the harbor be mined and that a division be formed there of three thousand men, which shall under certain circumstances occupy Tabatinga and Manos, Brazilian towns on the Amazon.

## A NOTED WOMAN IS COMING.

At this time when the energy and independence of woman are assisting her in overcoming barriers and securing an entrance into almost every occupation heretofore held exclusively by men, it is of interest to note that woman has finally proven her ability to train the monster elephant to do her bidding.

Madame Herkenrath is the first and only woman that has had the courage to face the dangers incident to the breaking of an elephant. There have been other women who have worked with animals, especially lions or tigers of the cat tribe, but no other woman ever attempted to train elephants.

Last winter at the winter quarters of Wallace's show, Madame Herkenrath spent from four to six hours per day training Maud, one of the smaller elephants of Wallace's herd. Men accustomed to such dangers stood aghast and protested that she should not be allowed to handle elephants, as to do so meant her certain death. She insisted on the ground that she wanted to prove that a woman could train an elephant. She had her way, and this season she enters the No. 3 ring of the Wallace show daily with her protegee, Maud, proud of her success.

When the Great Wallace Show exhibits in Wichita on Wednesday, May 12th, and when the citizens see Madame Herkenrath, who is really a beautiful brunette, they will see the only woman in the world who ever attempted to teach an elephant. This incident is only one of a hundred that tend to make the visit of the Great Wallace Show to this city a great deal more than an ordinary event.

When to Use the Hite Insect Destroyer. We wish to correct an erroneous idea that it is too late, etc. Now is the time, and from now on, and all through the months of June, July, August and September, while the growing season lasts, is when all wood-eating insects, such as the various varieties of borers, bark beetles, etc., do the most damage, and at the same time the green Aphids gets in his work on the leaves. The California scale has made its appearance here. Look out for it and head it off with R. R. Hite's Great Destroyer. Price, per package, \$2. Manufactured and for sale by J. B. Culver Mfg.
